

# Want your home to be bug free?

**Text 864-621-7243**

**NO CONTRACTS**

**INITIAL SERVICE FEE \$125**

Our **NO CONTRACT** services start with an initial service cost of \$125. With this price, we treat the inside and outside of your home creating a protective barrier inside and around the home that pest will have to move through to enter the home. Our chemicals protect your home for **90 days**.

This initial service covers all your basic crawling insects (ants, spiders, centipedes, beetles, etc.). This service **DOES NOT** cover flying insects (german roaches, fleas, or bed bugs.)

If your home or facility is serviced quarterly you will get 32% off each quarter that you continue the service, discounting your price to \$85. The inside will only need to be treated again if you have live activity inside between services.

In order to continue a contract free business, if you have not had your home/facility serviced after a 4 month span the price will return to \$125.
